Integrated Science III

Mrs. Montague - room 247

Course Outline: This course is a combination of Physical Science, Earth Science and Chemistry. Students will participate in labs, on-line research on current science topics, and demonstrations.

Science Journal: Students will be responsible for creating and maintaining a science Journal. Students will be held accountable if they lose this notebook and should make every effort to keep this notebook safe.

Internet usage: This class has a Science and Technology component and students will be expected to have internet access and be able to responsibly follow all the acceptable internet usage rules while using school computers for research.

Labs: Lab work is essential to comprehending science concepts. No horseplay or dangerous behavior will be accepted. Failure to responsibly follow lab safety rules will result in not being allowed to participate in lab activities.

Attendance / Late & Make Up Work Policy:

You are expected to be in class on a regular basis. Missing 1 class is like missing 2 on the block schedule. Unexcused absences will NOT be given make-up work! Late work causes students to fall further behind and not be prepared for labs and assessments.

Homework: Some homework will be handed in on-line. Paper homework will be collected at the **BEGINNING** of class on the due date. Homework turned in after the beginning of class will be graded as *LATE*.

Grades:

Parents are able to check the student's grade through ParentLink, at <http://parentlink.leeschools.net/>. While checking your child's success, a few tips:

- Z = A missing assignment (never turned in)
- X = An assignment that does not have made up
- 0 = An assignment with a score of zero

Note: It is my objective that ALL of my students succeed in this class. If there is an issue, please contact me so I can help. Email is the preferred method of communication and I am happy to call or schedule a meeting to discuss any issues that may impact learning in this class.
